## Other Scripture and Sources

Although the Bible is without doubt the most significant of Christian Scripture, it is often thought to be the only Christian Scripture. There are many other sources of 'scripture' and inspired writings, many very profound. Sadly overlooked, these compliment the message of the Bible and help to expand our understanding of God's Word. Not all inspired writings can be called scripture, of course, and we know that some reading this will not agree that they are scripture at all. We've included here some of the creeds and liturgies that have been recited throughout history and have become loved and regarded as nearly as important as the Bible itself. If that is not your view, that's okay, but don't underestimate the great contribution to Christianity that these have made. We must also understand that many do see these as nearly as important as the Bible. Whilst we don't accept all of them, we think we are within the latter group.
